Vegter JR: The fountains of Pretoria 113

Vendrell-Saz M, Garcia-Vallès M, Alarcón S, Molera J: Environmental impact on the Roman monuments of Tarragona, Spain 263

Vrba J: Thermal mineral water springs in Karlovy Vary 120

Weller A, Börner FD: Measurements of spectral induced polarization for environmental purposes 329

Williams M, Fordyce F, Paijitprapapon A, Charoenchaisri P: Arsenic contamination in surface drainage and groundwater in part of the southeast Asian tin belt, Nakhon Si Thammarat Province, southern Thailand 16

Wohnlich S: The spa of Baden-Baden, Germany 108

Wyatt DE, Temples TJ: Ground-penetrating radar detection of small-scale channels, joints and faults in the unconsolidated sediments of the Atlantic Coastal Plain 219

Yamamoto S: Springs of Japan 118

Yu J-Y: Pollution of Osheepcheon Creek by abandoned coal mine drainage in Dogyae area, eastern part of Samcheok coal field, Kangwon-Do, Korea 286

TITLE INDEX

Original Articles

Arsenic contamination in surface drainage and groundwater in part of the southeast Asian tin belt, Nakhon Si Thammarat Province, southern Thailand: Williams M, Fordyce F, Paijitprapapon A, Charoenchaisri P 16

Concentrations of contaminants in surface water samples collected in west-central Indiana impacted by acidic mine drainage: Allen SK, Allen JM, Lucas S 34

Effective porosity and specific yield of a sedimentary rock determined by a field tracing test using tritium as a tracer: Ii H, Ohtsuka Y, Mori N, Inagaki T, Misawa S 170

Effect of geochemical conditions on fate of organic compounds in groundwater: Higgo JJW, Nielsen PH, Bannon MP, Harrison I, Christensen TH 335

Endogenous technological change and pollution abatement: Kim CS, Uri ND, Sandretto C, Parry IW 191

Environmental applications of magnetometry profiling: Gibson PJ, Lyle P, George DM 178

Environmental geology of ancient Greek cities: Crouch DP 233

Environmental impact on the Roman monuments of Tarragona, Spain: Vendrell-Saz M, Garcia-Vallès M, Alarcón S, Molera J 263

Field assessment of acid mine drainage contamination in surface and ground water: Gray NF 358

Flow dynamics and erosion rate of a representative karst basin (Upper Aniene River, Central Italy): Bono P, Percopo C 210

The fountains of Pretoria: Vegter JR 113

Ground-penetrating radar detection of small-scale channels, joints and faults in the unconsolidated sediments of the Atlantic Coastal Plain: Wyatt DE, Temples TJ 219

Groundwater potential for irrigation in the East Oweinat area, Western Desert, Egypt: Nour S 143

Groundwater recharge estimation using chloride, stable isotopes and tritium profiles in the sands of northwestern Senegal: Gaye CB, Edmunds WM 246

Heavy metal history from cores in Wellington Harbour, New Zealand: Dickinson WW, Dunbar GB, McLeod H 59

Impact of a coastal disposal site for inert wastes on the physical marine environment, Barcola-Bovedo, Trieste, Italy: Colizza E, Fontolan G, Brambati A 270

Kadesh Barnea (Water Shall Flow from the Rock): Issar AS 85

Laboratory simulation of geogas microbubble flow: Etiope G, Lombardi S 226

Lisdoonvarna springs and spa wells, County Clare, Ireland: Drew D 97

Main karstic springs of Israel: Kafri U 80

Mallow Springs, County Cork, Ireland: Aldwell CR 82

Measurements of spectral induced polarization for environmental purposes: Weller A, Börner FD 329

Methodology for mapping shallow groundwater quality in urbanized areas: A case study from Lithuania: Klimas AA 320

Mineral water exploration and exploitation at the Portuguese Hercynian Massif: Carvalho JM 252

Mineral waters in Italy: Bono P, Boni C 135

Monitoring shallow groundwater quality in agricultural watersheds in Denmark: Rasmussen P 309

Ombla Spring, Croatia: Milanović P 105

Origin of the Danube-Aach system: Hötzl H 87

Pollution of Osheepcheon Creek by abandoned coal mine drainage in Dogyae area, eastern part of Samcheok coal field, Kangwon-Do, Korea: Yu J-Y 286

Pore-water response on seasonal environmental changes in intertidal sediments of the Weser Estuary, Germany: Sagemann J, Skowronek F, Dahmke A, Schulz HD 362

Primary minerals of Zn-Pb mining and metallurgical dumps and their environmental behavior at Plombières, Belgium: Kucha H, Martens A, Ottenburgs R, De Vos W, Viaene W 1

Secondary mineral phases of metallic lead in soils of shooting ranges from Örebro County, Sweden: Lin Zhixun 370

Sediment and heavy metal accumulation in the Cauvery basin: Ramanathan AL, Subramanian V, Das BK 155

Sediment transport analysis as a component of coastal management—a UK example: Hooke JM, Bray MJ, Carter DJ 347

Source of the River Shannon, Ireland: Gunn J 110

The spa of Baden-Baden, Germany: Wohnlich S 108

Springs in Egypt: Idris H 99

Springs of Great Britain: Day JBW 77

Springs of Japan: Yamamoto S 118

Statistical comparisons of heavy-metal concentrations in river sediments: Murray KS 54

A study on geology, geomorphology, hydrology, groundwater, and physical resources of the desertified Badia environment in Jordan towards sustainable development: Al-Homoud AS, Allison RJ, Sunna BF, White K 198

Subseabed disposal of radioactive waste: effects of consolidational fluid flow: Bitzer K 300

Texture and geochemistry of the sediments of a tropical mangrove ecosystem, southwest coast of India: Badarudeen A, Damodaran KT, Sajan K, Padmalal D 164
Thermal mineral water springs in Karlovy Vary: Vrba J 120
Water chemistry and control of weathering of Pichola Lake, Udaipur District, Rajasthan, India: Das BK, Singh M 184
Water quality impacts from mining in the Black Hills, South Dakota, USA: Rahn PH, Davis AD, Webb CJ, Nichols AD 38
Waters of Hot Springs National Park, Arkansas–their nature and origin: Sniegocki RT 79
Water supply of Rome in antiquity and today: Bono P, Boni C 126
